Introduction

Innovative Engineering

FOR THE FUTURE

Corporate governance is one of the fundamental aspects of our business model.

Udeco Engineering Company Limited is committed to best practice in corporate governance and upholds strong governance throughout every strand of the organization. We believe united and decisive management, along with effective corporate stewardship, is one of the competitive strengths of our company which fosters a centralized business model and underpins our long-term performance.

Our team of highly trained and qualified engineers are committed, hardworking and determined to ensure that every working relationship yields the expected results under the best working condition. At **UDECO Engineering**, we believe that the ultimate success of any project hinges primarily on the quality of the people involved. We have therefore made recruiting and retaining talented personnel a corporate priority. Our group of dedicated personnel are second to none.

Our clients tell us that one of the best things about working with us is that we are able to adapt to the business needs and information flow of the companies we work for, meaning we can offer value and services at any point in the engineering process.

Henry .O. Ude
MD/CEO

About Us

WHAT WE ARE, VISION | MISSION | CORE VALUES

UDECO Engineering Company Limited is a company duly registered by the Corporate Affairs Commission(CAC), to carry out various mechanical and civil works ranging from; Welding, Agricultural and Industrial Machinery, Factory Building, Storage Facility, Machine Shop and Spare parts acquisition.

UDECO Engineering Company Limited is an indigenous Engineering, Procurement, Construction Management (EPCM) Company in Nigeria and has been in this sector for over 45 years.

Our team of experience professionals in engineering design and construction, work round the clock to satisfy our client and exceed their expectations.

Our company is highly diversified in these fields of engineering, multidisciplinary contractor and is an industry leader. Our team has earned its place in today's competitive market through a combination of our core beliefs and the consistent delivery of superior services and quality end products. The individualized care and unwavering attention that we bring to all of our projects are deciding factors in why our clients continuously choose us.

OUR VISION

To become the most respected and prominent engineering company in our industry - known for our dedication to excellence in everything we do.

UDECO Engineering quality management system is certified to ISO 9001: 2015, thereby meeting and exceeding client's expectation.

Welding & Fabrication

UDECO Engineering Company Limited is an industry leading, full-service machining and manufacturing service provider including a variety of welding and fabrication services for metal components. Bringing more than four decades of quality manufacturing processes to every project, UDECO has the experience and expertise to meet the requirements of any industry.

We provide best welders and fabricators from across the length and breadth of the nation, Nigeria.

Currently, **UDECO Engineering Company Limited** serves a wide range of customers in industries and applications such as agriculture, industrial equipment and components, precision metrology components, oil & gas, petroleum, hydraulics and more.

METAL WELDING

We have experience welders who have over the years proved their mettle in the welding industry.

Our welders provide a wide variety of metal welding processes to meet the needs and requirements of any steel or aluminum welding job, including contract jobs and production runs for small-to-medium-sized parts.

We also offers a range of fabrication services in addition to welding services, for metal fabrication designs.

METAL FABRICATION

In addition to welding services, **UDECO** also offers a range of fabrication services for metal fabrication designs. Our Metal fabrication are done in accordance to specifications and standards.

Each job, big or small, is quoted on an individual basis, so whether your current project needs a prototype, a small run, or you're ready to scale into full production, **contact UDECO** so we can start building your custom quote today.

Machine Installation

UDECO is one of the leading providers of comprehensive machinery installation services and equipment installation for production lines, industrial plant and mechanical infrastructure.

To deliver the best machine installation service our qualified service technicians will offload, inspect, assemble, and commission your machine.

All of our equipment installation projects are delivered to an extremely high standard, with thorough planning and attention to detail.

UDECO sub-contracted local electrical crews guarantee that all applicable electrical safety codes are met. And our professional field supervisors are trained and certified to make certain your machinery system is assembled as per our specifications and qualify for warranty protection.

UDECO supervisors will direct the installation of your new purchase and guide your production crew to a successful start-up.

Spare Parts Sales

We offer a fantastic range of Machinery (Agriculture, Civil & Mechanical) spare parts for various models and specs of machinery supplied from across the WORLD

Using our extensive industry experience and knowledge, all of our Machine Replacement Parts are specifically developed to ensure customers are buying genuine and complete peace of mind.

UDECO Engineering parts works with the top heavy machinery manufacturers in the world to provide unbeatable prices, quality and service on genuine and after-market parts.

We specialize in a wide network of manufacturers and distributors to give you the largest selection of replacement parts for your machinery.

Please, do not hesitate and contact us today for more information and direct quotes.

Construction and Engineering Contractor

WE BUILD PRODUCTION FACTORIES

From the start, down to finish...

“

We offer project-managed plant, equipment, warehouse and factory building services, giving you the peace of mind that your project is running smoothly in line with your legal obligations.

”

UDECO Engineering Company Limited

has qualified and proven engineering team can ensure your project is completed on time and on budget, while maintaining the highest safety standards and minimizing disruption to on-site operations.

Our factory building services include full testing, commissioning and verification. We offer full equipment testing, commissioning and verification services to ensure your new facility is fit for purpose and safe to use prior to handover.

UDECO Engineering Company Limited has extensive experience in construction and engineering services for a range of end markets across the nation. Our expertise covers an array of services across engineering (e.g., agricultural and industrial, architecture/design, engineering consulting), general contracting and property management (e.g., civil contracting, infrastructure contracting, building) and specialty subcontracting services (e.g., concrete and asphalt cutting, geotechnical services).

We are familiar with the key factors that should be taken into consideration when developing a growth strategy, including the sources of growth, value drivers and paths to achieve value creation.

We have helped companies combat market declines and position to grow through organic and inorganic growth opportunities.
